

Hi, We're Greenhouse!

Our mission is to give people catalytic ways to grow their healthiest lives through daily habits. Our goal is to make it simple to savour the present while looking out for a healthy future - - ours, and that of our planet.

Our Commitments

Certified Organic

No GMOs, chemical fertilizers, pesticides, or herbicides.

B-Corp

Making business a force for good.

Bottled in Glass

Sustainable practices--to balance the needs of today with our goals for tomorrow.

Plastic Neutral

Learn about how we are fighting plastic and microplastic pollution.

Nine Beverage Families

Our complete lineup includes inventive recipes across multiple beverage categories.

No Nonsense

Our clean labels are free of additives, gums, and preservatives.

Plant Perks

Sugary? Nope. Energizing and immunity boosting? You betcha.

Greenhouse Cold-Pressed Juices

With multiple servings of freshly pressed fruits and vegetables in each bottle, these raw, organic, Cold-Pressed Juices make it simple and delicious to prioritize health, no matter how busy you are, and to drink in the benefits of more plants, more often. Our cold-pressed juices are light filtered and enhanced with organic fermented botanicals like ginger and lemongrass for natural shelf life extension that keeps nutrients intact.

Greenhouse Adaptogenic Lattes

Coffee, meet mushrooms. Lower that quizzically raised eyebrow — just one sip of this creamy, dreamy, oatmilk latte will show you that this isn't a rom-com mismatch; rather the power couple of the year. Organic cold-brew arabica coffee provides a bold coffee base, elevated by smooth and creamy gluten-free oats for a flavour that will have you on cloud nine alongside the frappy couple in next to no time.

Greenhouse Kombuchas

Sparkling, refreshing, and lower in sugar than most of their counterparts (with an average of 6g per 300mL bottle), our organic Kombuchas contain active cultures that can support gut health. A healthy gut has been linked to improved digestion, weight management, healthy skin, strengthened immunity, and improved mood. Greenhouse Kombuchas are also made with our cold-pressed juices, giving them a unique flavour profile unlike other Kombuchas on the market. Two of our five flavours are caffeine free, made with fermented lemongrass rather than black tea - perfect for those seeking a healthy drink to pair with dinner, or to unwind with in the afternoon or evening.

Greenhouse Ginger Beer

We're proud members of the Upcycled Food Association, which defines upcycling as "Foods [which] use ingredients that otherwise would not have gone to human consumption, are procured and produced using verifiable supply chains, and have a positive impact on the environment."

Ginger Beer is made by upcycling ginger pulp — the fibrous byproduct left over from when we cold-press organic ginger root. We brew this pulp into a ginger tea, which we use as a base for the rest of the recipe, transforming what would otherwise be considered food waste into something new and delicious.

Greenhouse Plantmilks

Our clean label, organic Plantmilks contain no nonsense — no stabilizers, preservatives, gums, or additives. Each bottle is made with familiar pantry ingredients only. T-oat-ally nuts, right? Speaking of which, our Almondmilk's high organic almond content delivers rich nuttiness in every sip. And let's not forget about our organic Oatmilk, which packs a whopping 35% of your daily beta-glucan fibre thanks to its Canadian gluten free oats. These silky, satisfying, dairy free Plantmilks offer 5g plant protein in every 250mL serving, and are made from only the best organic ingredients.
